Re: Reference letter for Barbara Gloor

To Whom it May Concern:

I met Barbara when I was first considering purchasing the Sunflower Bakery and Café business from her and her husband Daniel. Being the prospective business owner, I had a lot of questions for Barbara and she showed a level of professionalism that I was very impressed with. Once I decided to go ahead with the business acquisition, the entire business transaction was handled extremely well by her. Her people and communication skills are outstanding and I have no doubt that she will be very successful in any business endeavor that she decides to pursue. Barbara has been instrumental in building the Sunflower Bakery and Café as a strong local brand in the Sea to Sky corridor. She has established solid working relationships with many of the business owners in Squamish and Whistler and as a result I have not had any issues with any of the existing and very well established client base in the Sea to Sky corridor. Barbara has done exceptional work establishing and growing the business since 1995. Her honesty and hard work made it very easy for me to acquire the business and to get trained in every aspect of the business. I would highly recommend doing business with her as she is one of those rare individuals that will go the extra mile for each and every one of her clients.

Kind Regards,

Moez Janmohamed
Director
Sunflower Bakery Ltd.
